This chart is only intended as a general guideline.

Use rates and plant phase periods may be adjusted according to individual needs.

* FOR AN EXTRA VEG WEEK

UPTHRIVE Grow Fertilizer	10 ml	ÉLAN Plant Booster	15 ml
PROSPER Bloom Fertilizer	—	SPARK Plant Stimulant	5 ml

FOR SUPPLEMENTAL FOLIAR FEEDING

Use **UPTHRIVE** (nitrogen boost) , **ÉLAN** (improves the plant energy & increase the stress tolerance) or **SPARK** (potassium boost & triggers flowering).

Mix 1-2 ml / 1 L of water and apply weekly or as needed, only in vegging or in the first week of flowering.

According to this feeding chart, for hand-feeding applications only- use with native soil, coco- coir and planting mixes - dilute Crazy Hills™ Nutrients with water.

The indicated dosage is per 10 liters of water.

Always shake the products vigorously before each use.

For crazy-good results - feed with every watering.

UPTHRIVE

N	P	K
4	1	5

Grow fertilizer that gives your plant exactly what it needs to enhance shoot growth, while laying the foundation that ensures better flowering, budding, fruiting, seed production and a healthy yield!
